In what ways will the donation of in-kind services and/ or wireless phones help your organization run more smoothly? How will your organization use this service?

In the interest of forming partnerships between ACS and local non-profits, ACS requires that any organization awarded phones must provide public exposure to ACS. How does your organization plan to fulfill that requirement? Be specific. (Renewing applicants may enclose photos or other examples).

Are you willing to work with an ACS representative to come up with creative advertising methods that would promote both organizations at once?

What services, if any, does your organization currently have with ACS?
